

# *186th Air Refueling Wing*

## *Base Tour Safety Brief*

- Welcome to the 186th Air Refueling Wing – the best Air Mobility Unit, the standard by which others are measured!
- If an emergency arises today and we have to evacuate a building, follow your tour guide and he or she will instruct you where to go.
- You are allowed to take photographs. If there are any photography restrictions during your tour, your guide will ask you to put away your devices.
- In order to maintain safety, we ask that you remember the following:
  - Follow the directions of tour guides and military members at all times.
  - Be aware of automobile traffic on the base.
  - No running at any time.
  - Horseplay is not allowed.
  - Do not operate military equipment, unless a military member has given you permission as safety is paramount!
  - When climbing a ladder or steps, maintain three points of contact.
- Most importantly, thank you for your interest in what we have to offer at Key Field Air National Guard Base!
